FROM
SHINGLES**

Selling Pharma brands Vs Selling Vaccines

Team Discussion

	Pharma	Vaccines
Patient Profile		
HCP		
Competition		
Expected Outcomes		

Dynamics are different when Selling Vaccines

Pharma

- Clear patient profile
- Clear symptoms
- Diagnosis process
- HCP Prescribe a medicine fit to these symptoms
- key selling message fit with the patient profile
- Expected outcome is to start / increase Rx
- Possibilities of multiple competition

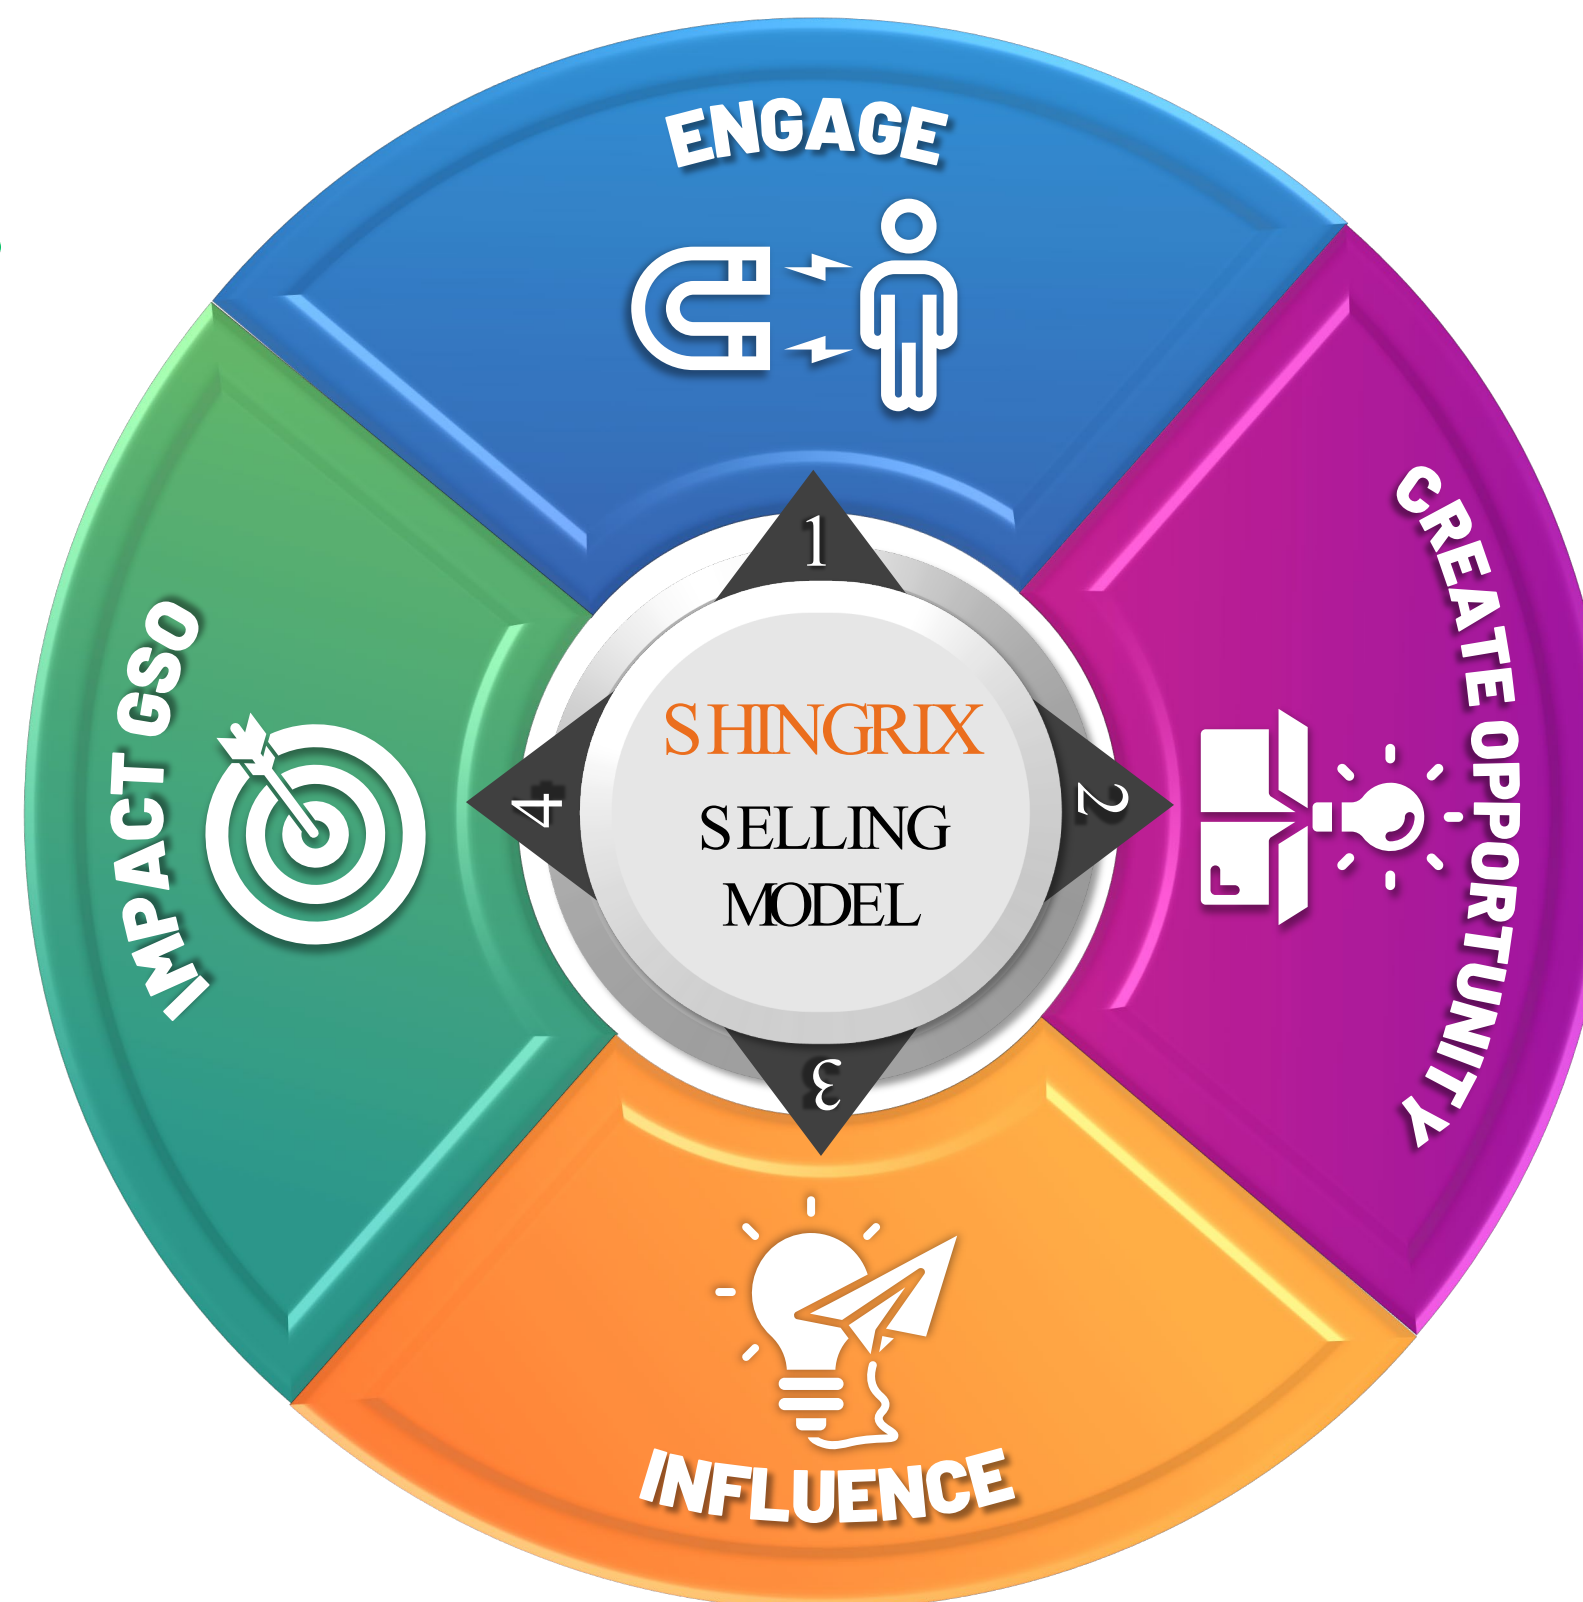

Vaccines

- Healthy subjects
- No symptoms
- No diagnosis process
- No immediate treatment required,
- HCP not aware or interested to start this process
- HCP prescribe Vx as protection or prophylaxis
- HCP need to persuade healthy patient to receive Vx

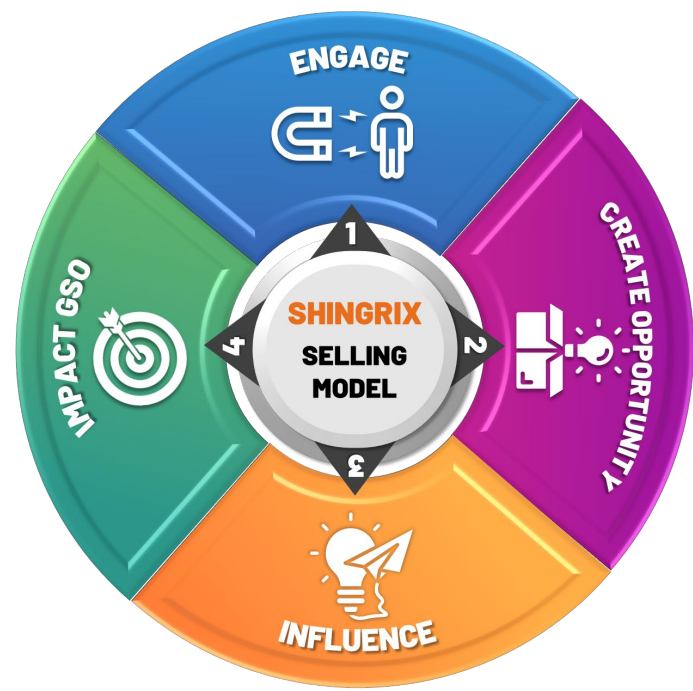

IMPACT: Shingrix Selling Model

PREPARE

ANALYSE

What is

IMPACT

Shingrix Selling Model

The IMPACT's Essence

Customer Centricity

Focus on the **HCP's reality, needs** and **perspective** aiming to implement a patient focused selling to each HCP.

Tailored storytelling

Drive a truly **customized** conversation, **creating the specific opportunity** to each HCP and involving him in an emotional selling process
Key selling messages must be used to bring confidence to **start** the **new experience** with Shingrix.

How to do it:

Vaccination is not a reality for most of our Customers ! We have the responsibility to help them in HOW to do it.

- How to have the conversation with their patients?
- How to prescribe Shingrix?
- At what moment during the consultant?

Objectives

Empower

Sales Teams with a tailored approach to excel in Shingrix sales

Equip

Sales leaders with powerful coaching approach to elevate the capabilities

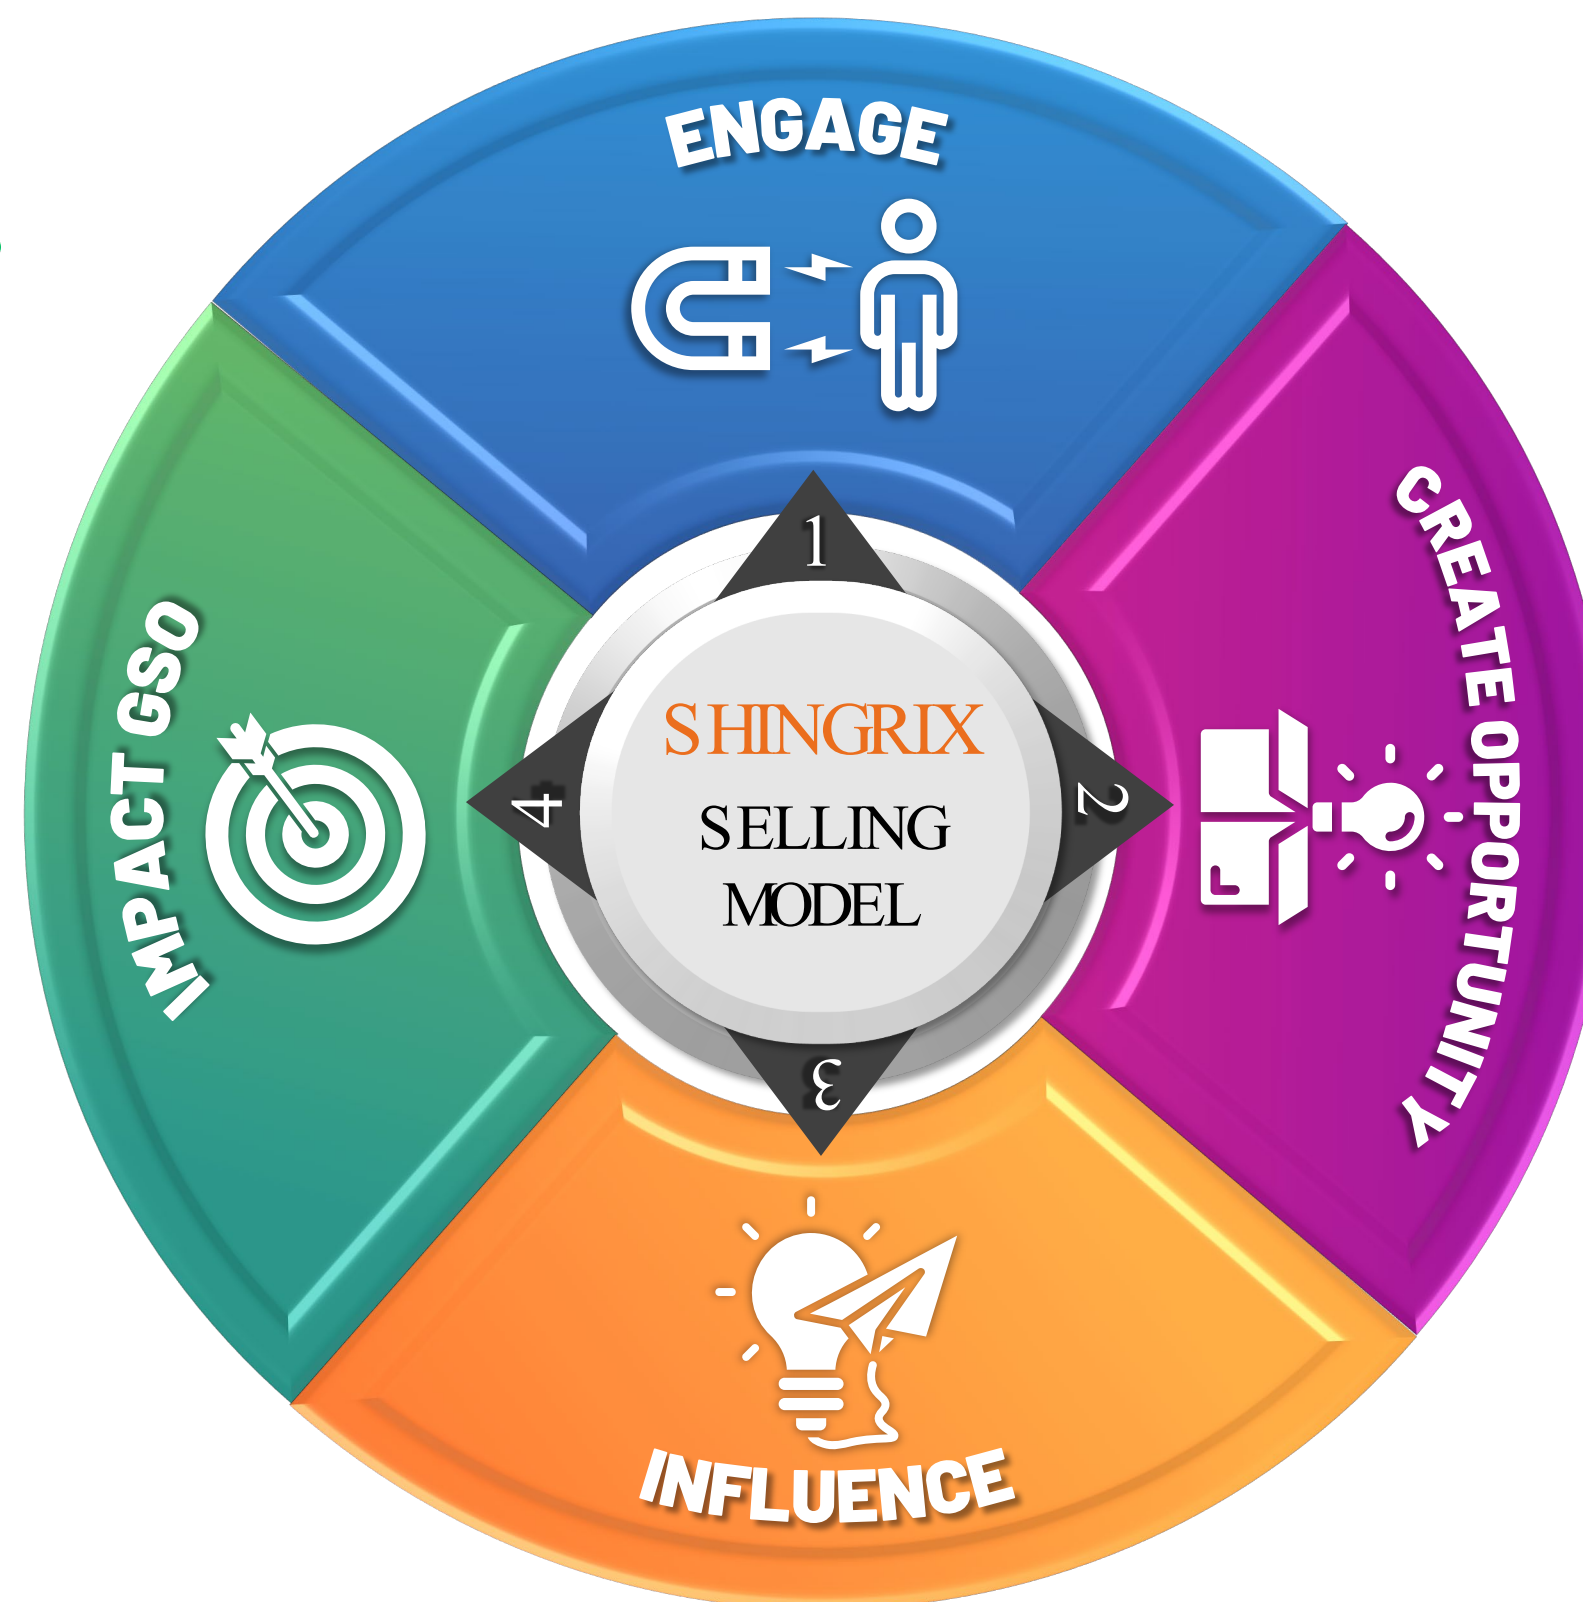

Differentiate

Sales team to enhance customer experience through tailored approach

Prepare for the call

Customer Vx Journey

PREPARE

Reach

Dr. Ahmed IM
 He don't believe that vaccination is his responsibility. He informed that his priority is to treat the chronic diseases and, also, that shingles is not a disease that he sees frequently.

Acquisition

Dr. Samir Endocrinologist
 He participated in some Shingrix events, and he is convinced about Shingrix data, he is starting to prescribe Shingrix to some patients that proactively asks him about it, for those who don't ask, he don't have time to do it in his consultant.

Conversion

Dr. Fatma Pulmonologist
 She is convinced that shingles is a risk for their COPD patients and in the last call, she informed that she is prescribing for all COPD patients above 50 years. For other patient profiles, she is not prescribing yet as she believes that there is no correlation of shingles in other respiratory chronic disease.

Engage

Dr. Mary IM
 She is very worried about prevention. she confirmed that she sees the risk and impact of shingles in her patient and that she is already prescribing Shingrix for all her patients above 50 years.

R A C E

Co-Identify Patient Profile

- Plan to focus the discussion on specific patient profile.
- Plan on how will you introduce & align on this patient profile with HCP.

Aligned Vaccination Moment

- Plan on how will you align with HCP on the trigger of the vaccination decision

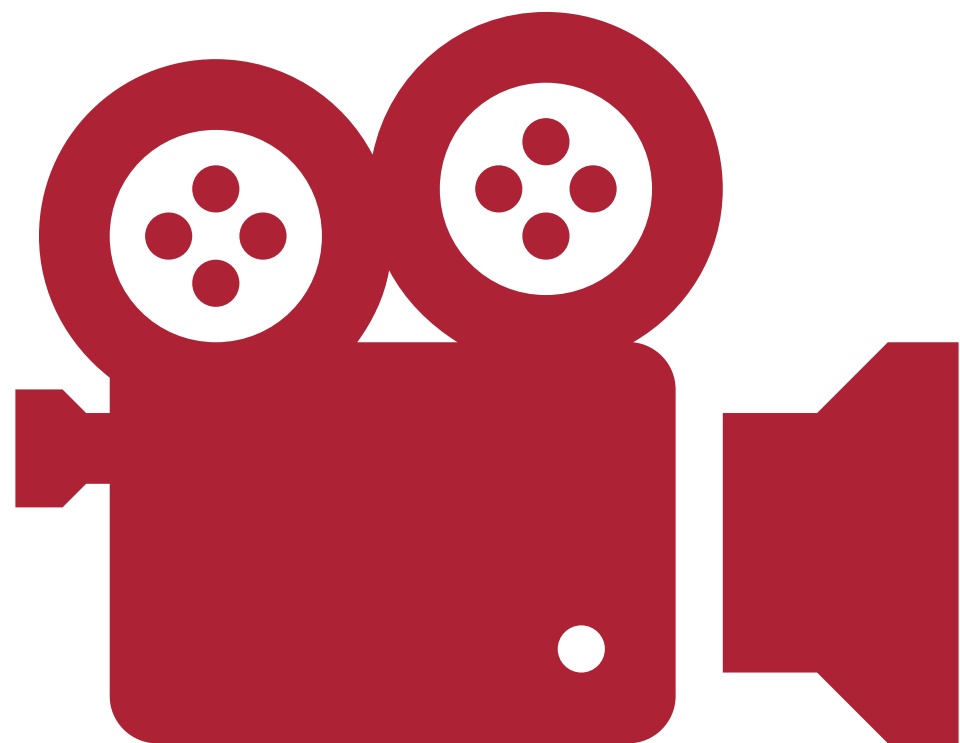

New Experience

- What is the call outcome you want to achieve with HCP?
- What is the different experience (IMPACT GSO)

Prepare the call Demo

To be replaced with local video

Prepare the call RP.mp4Prepare the call RP.mp4

Exercise 1:

Let's Co-Identify our 1st patient profile

PREPARE

- Every team create **COCO** for one patient profile for **REACH** HCP as per the targeted specialty:

- **Augmentin** : Dermatologist / IM / Dentist
- **Seretide** : IM
- **Anoro** : Pulmonologist
- **Core Vaccine**: Paediatrician
- **Shingrix team**: Neurologist

- 10 min discussion
- 15 min to share the patient profiles

TIPs

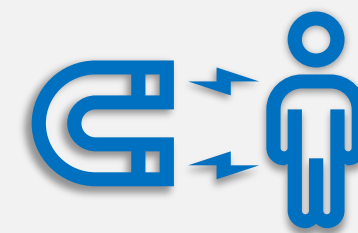

- Create patient profile matches with the targeted HCP specialty
- How will you align on Vx moment (what is the trigger for the Vx decision)

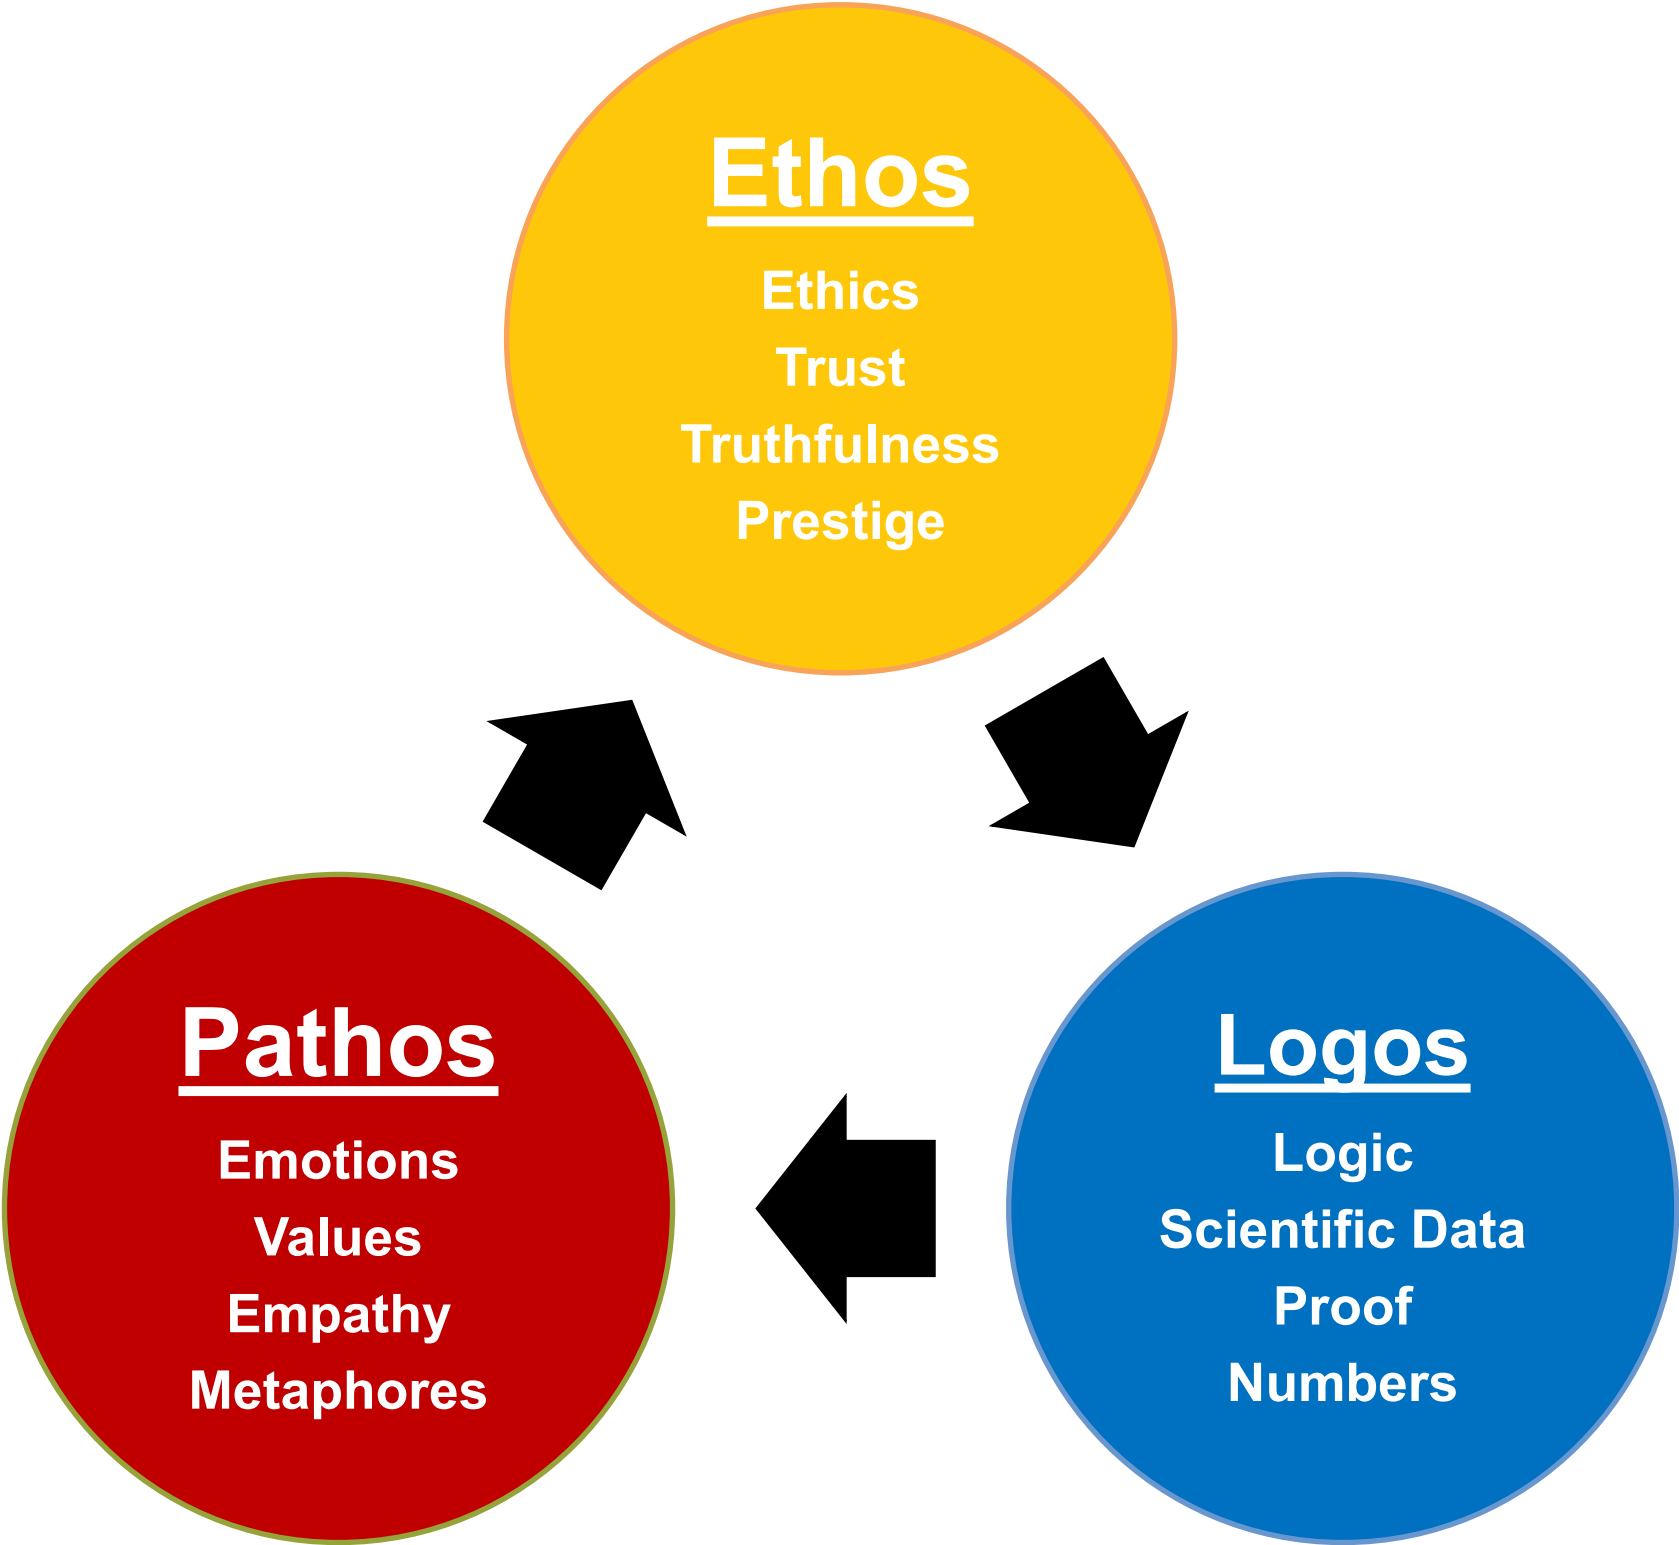

IMPACT

Shingrix Selling Model

Engage

Emotive Selling approach

Emotive Selling approach

Emotive Selling approach

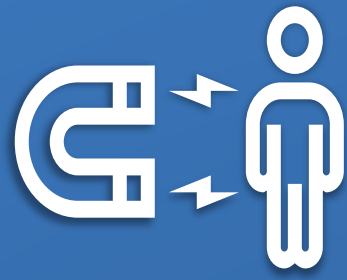

Story Telling

Creating Analogies such as metaphors

Using imagery

Quotes

ENGAGE

Rapport & Link to the last Call

Co-Identify patient profile

- Tell the story of this patient
- Highlight the feelings, visuals in an emotive way, while painting the patient profile
- As you planned, align with HCP on the patient profile

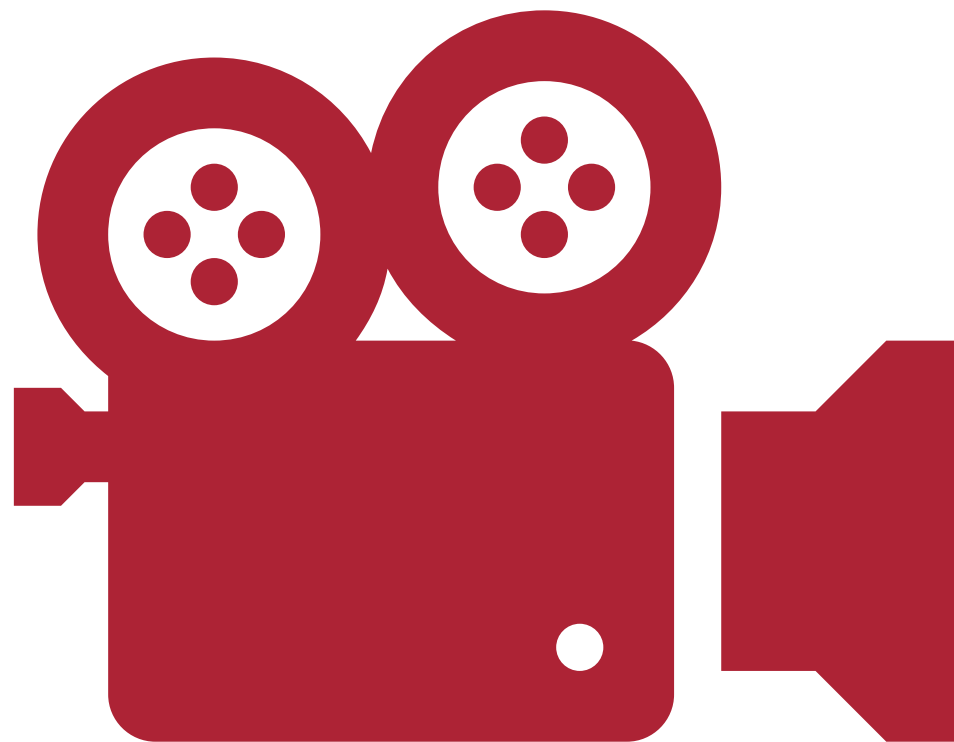

Create Interest and share value

- Create interest / URGENCY, build value of the Vx,
- Make the HCP think about the risk that +50 patient would face if he had shingles
- Use **EMOTIVE** selling approach to highlight the risks & patient experience

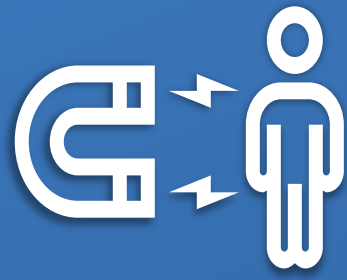

Engage Demo

To be replaced with local video

ENgage Step RP.mp4

ENGAGE

Exercise 2:

- Every team will create the best engagement approach for **REACH** HCP to co-identify the patient profile in the Exercise 1 and create value & interest.

TIPs

- Link to last call – if possible
- Identify patient profile relevant to HCP practice, align with HCP on the risks
- Create interest and value through emotive approach

- 10 min discussion
- 10 min to share the patient profiles

IMPACT

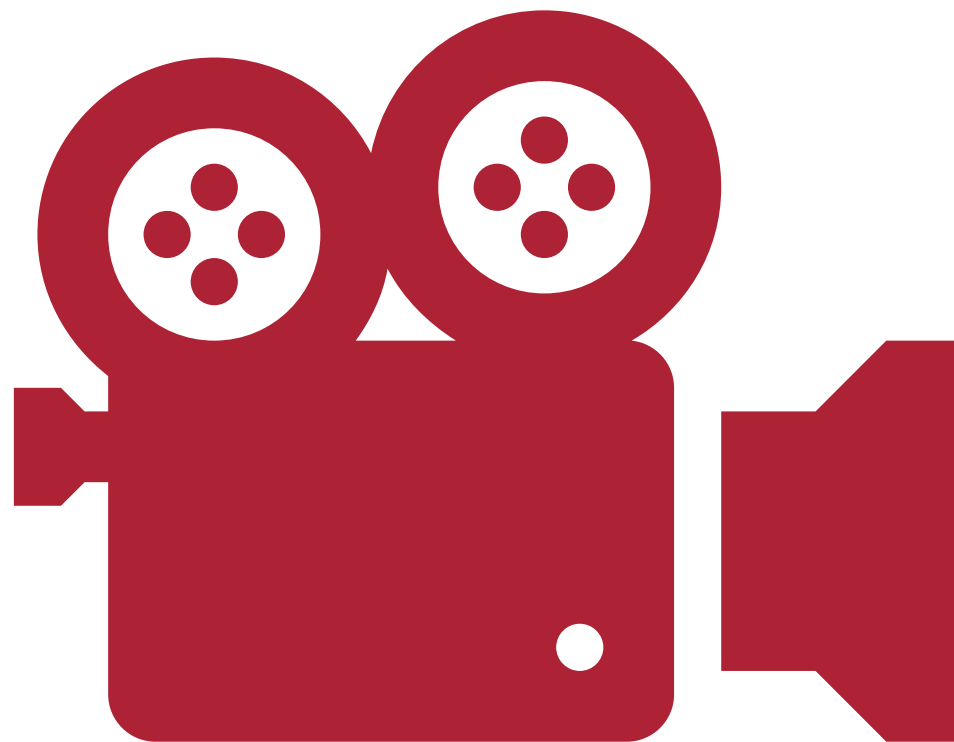

Shingrix Selling Model

CREATE
OPPORTUNITY

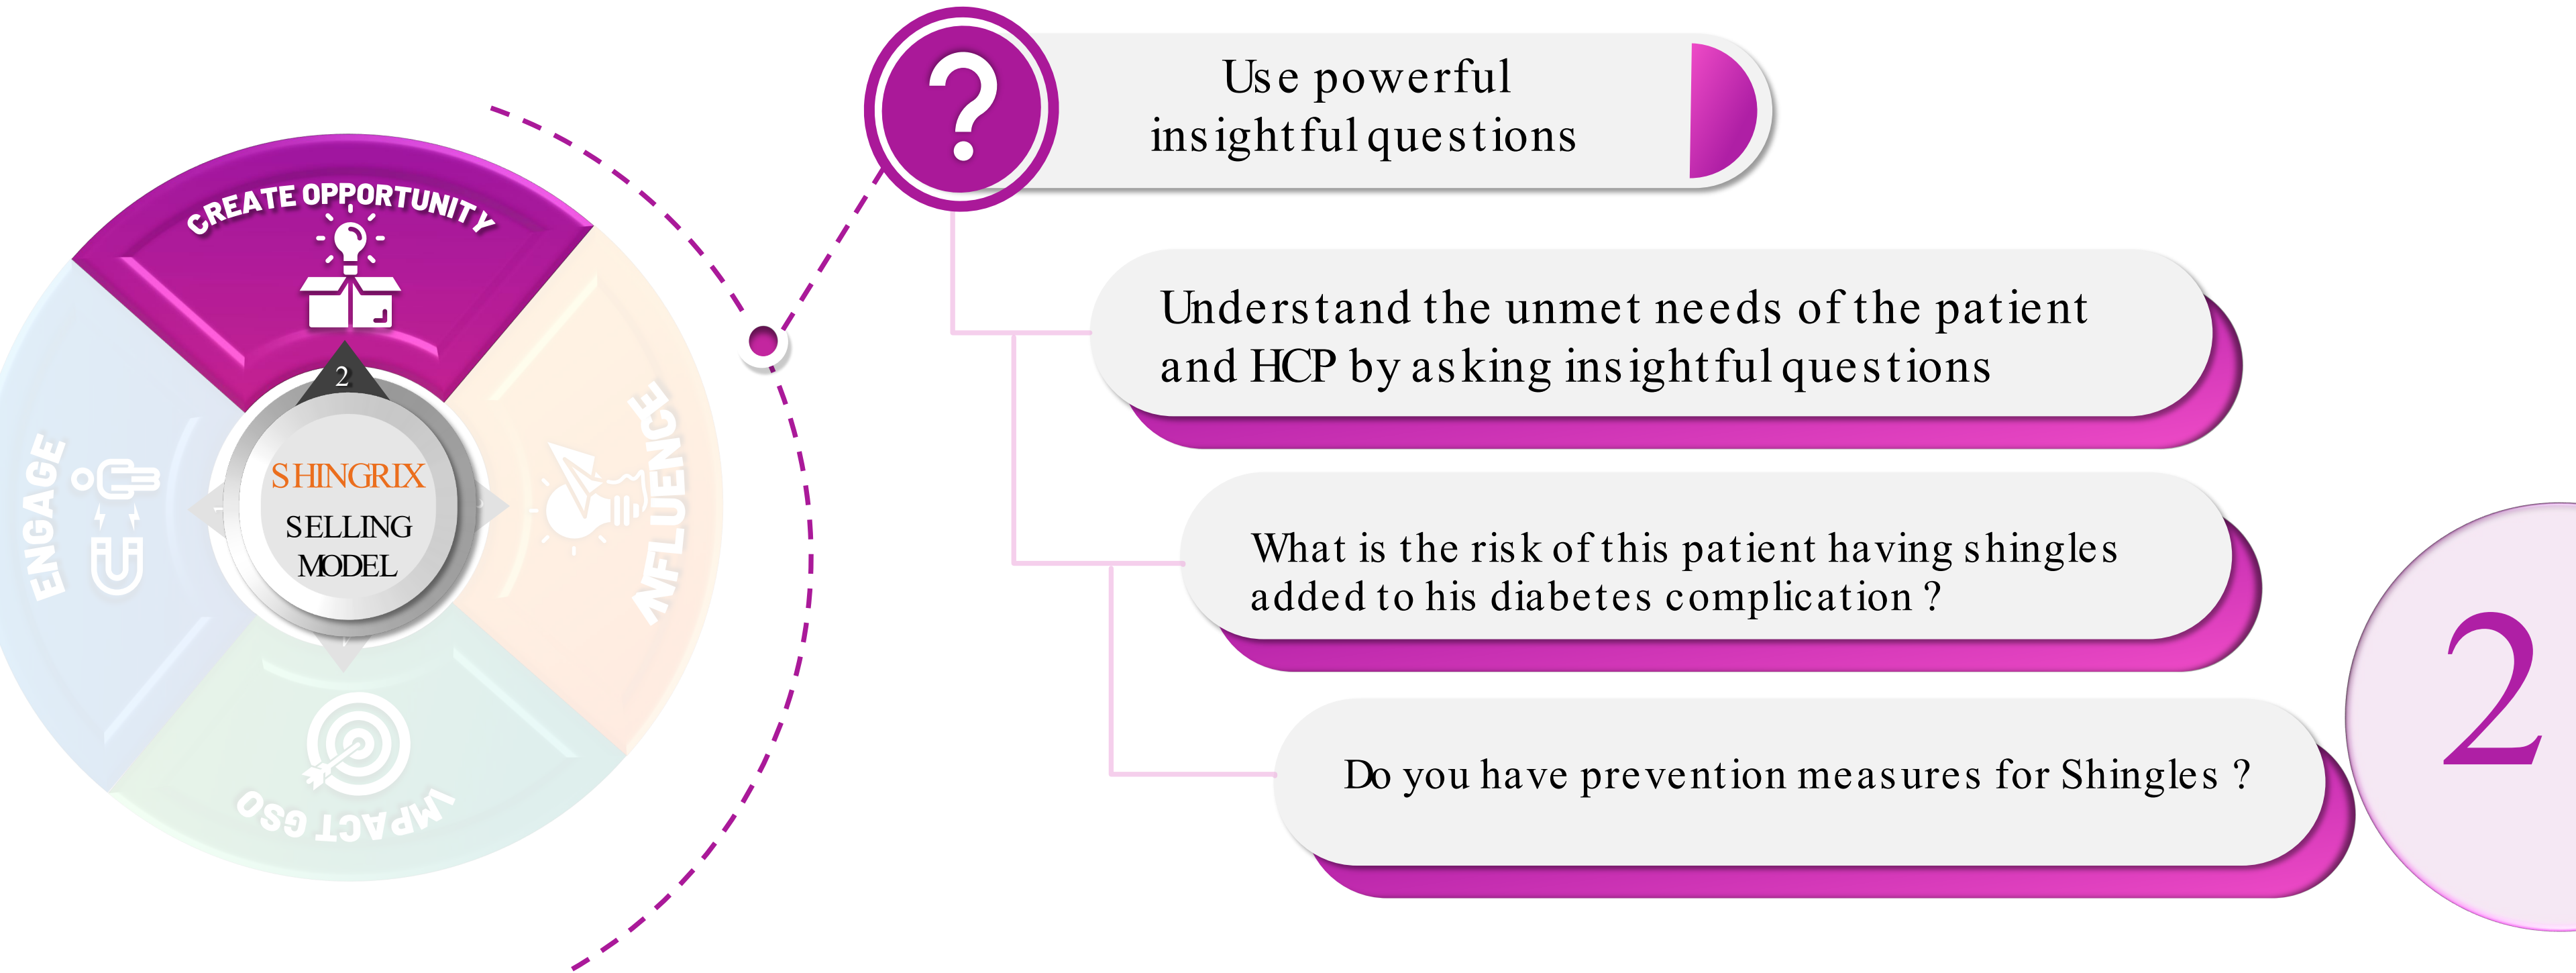

Create opportunity

Rehearse & facilitators do the talk

[create opportunity step.mp4](#)

Create Opportunity

Create the need and the opportunity to prevent Shingles

CREATE OPPORTUNITY

Create the need/urge to prevent Shingles

Use POWERFUL insightful questions

What is your prevention measures you do for your patient [Diabetic , Pulmo , etc] ?

What is the risk of this patient having shingles added to his diabetes complication ?

Do you have prevention measures for Shingles ?

What are the barriers to start it with your patient?

- When & How do you ask your patient to follow preventive measures?
- To what extent do the chronic patient could suffer from shingles symptoms?
- Which sector of those patients is at high risk of infectious disease?
- When do you think about adult vaccination?
- What are the main barriers to recommend vaccines to your chronic patients?
- What could be the consequences of shingles on chronic patients?

CREATE OPPORTUNITY

Exercise 3:

- Every Team will **create 3 insightful questions** that will lead to *create opportunity* for this HCP. Helping the HCP to think about *urgency / need* of protecting the co identified patient profile in Exercise 1

- 10 min discussion
- 10 min to share the patient profiles

TIPs

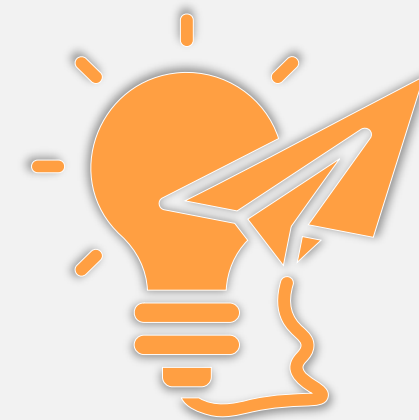

- Challenge HCP status quo
- Ask about the preventive measures in his routine
- Focus on patient experience
- Clear, structured & authentic questions (preferably short & direct questions)

IMPACT

Shingrix Selling Model

INFLUENCE

INFLUENCE

Link Key Selling Messages to agreed patient

- Customize your message to match the co-identified patient

Handle objections

- Be ready to handle HCP objections using APACT
- Example: Cost , Time ,.....

Co-create the Moment to start Shingrix

- Lead the call to agree with HCP on the time that he will interfere & start discussion about Shingrix with the patient.

INFLUENCE

Exercise 4:

- Team will prepare the message that support the selected patient profile

- Team will handle HCP objection:

1- Cost

2- Time

- 10 min discussion
- 10 min to share the patient profiles

TIPs

IMPACT

Shingrix Selling Model

IMPACT GSO

IMPACT GSO

1 + 1

1- new experience
1- Insightful Question

One New Experience:

Move to vaccinator or if vaccinator, use with new profile or influence other

New patient profile

Influence others

Standardizing the prescription

Action/ Activity to enhance disease awareness

Available in the clinic

New approach to convince the patient

New approach to FUP and guarantee adherence/ compliance

Action/ Activity to maximize prescription (ex: Zoster day)

One open insightful question

to verbalize the commitment:

When will you make it available?

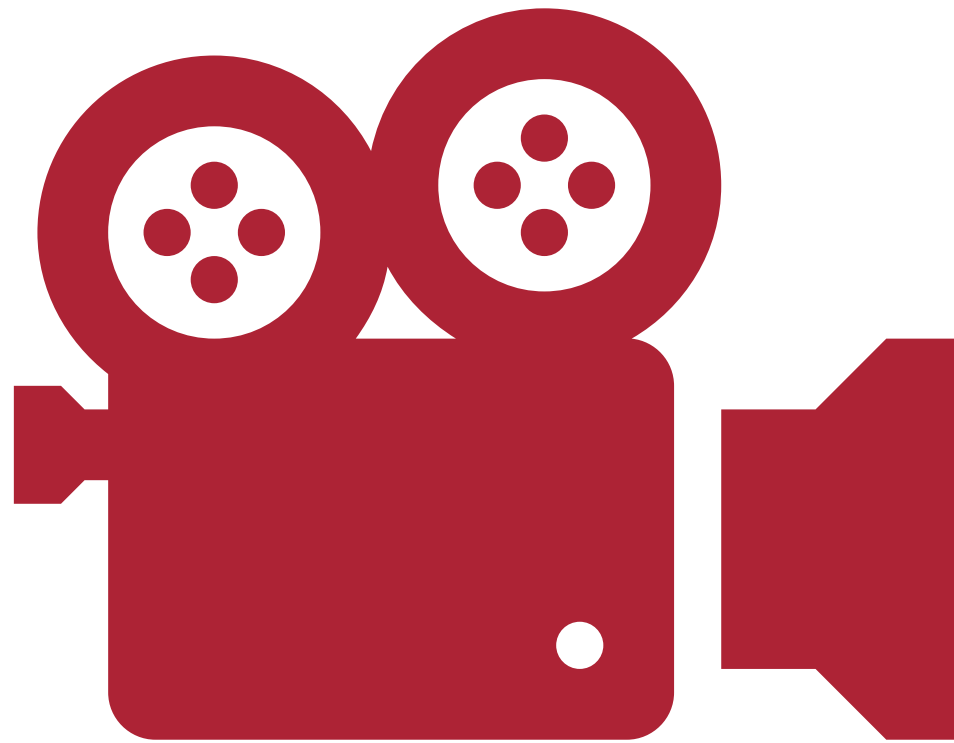

What is the moment to prescribe Shingrix?

Who is the patient you can start this new approach to Shingrix adherence this week?

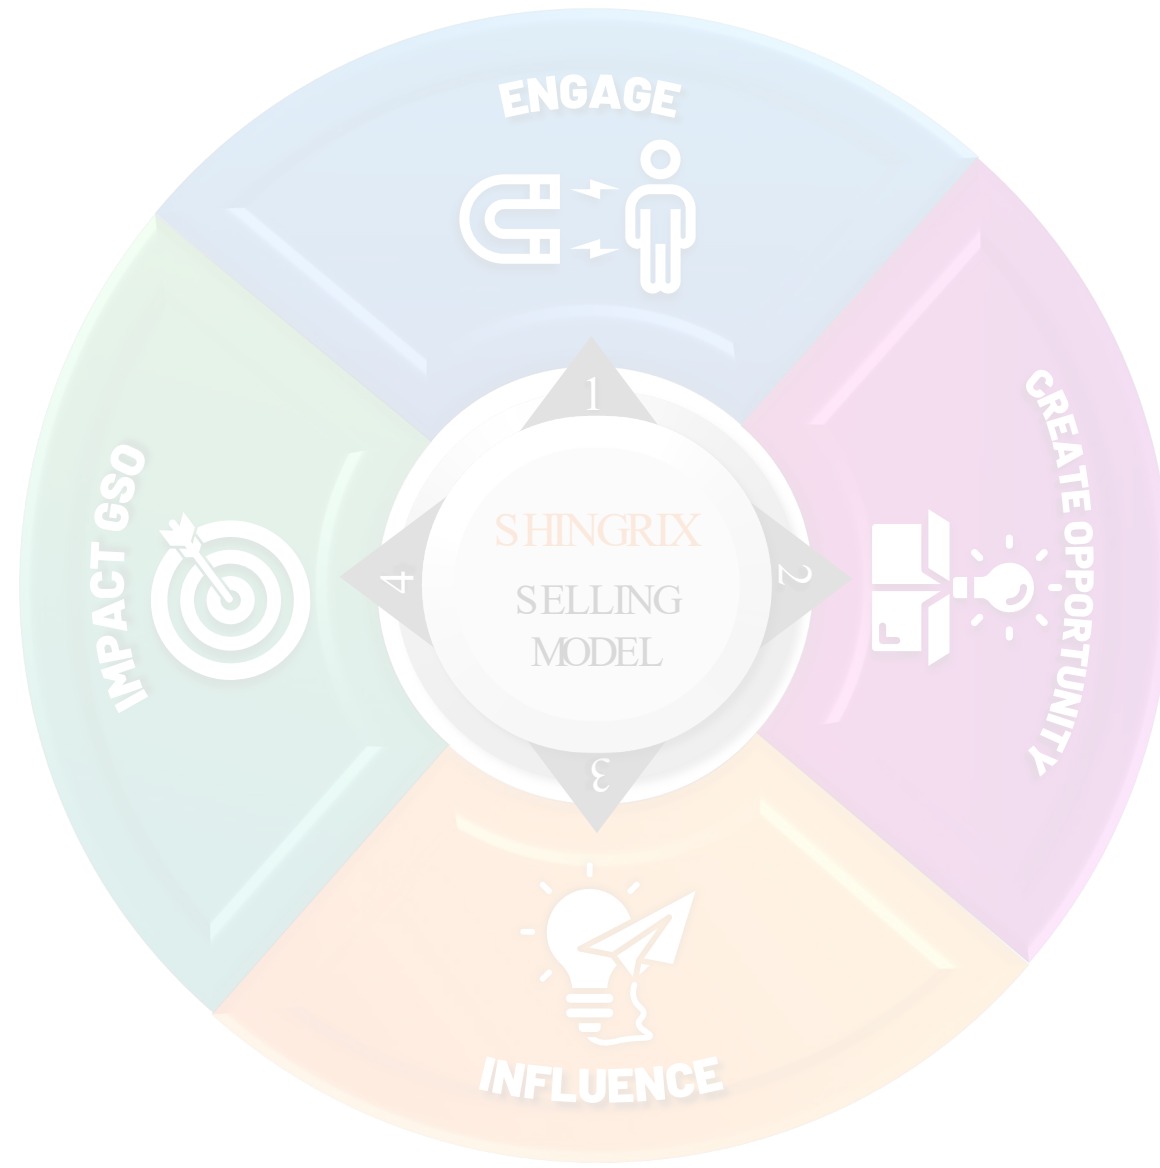

How do you plan to increase the awareness of Singles?

Impact GSO Demo

To be replaced with local video
